- You'll sign a contract when checking in your rabbit/guinea pig.
- We ask you to trim long-haired rabbits/guinea pigs so they can't get any fur in their eyes. And please trim the whole body if it is a long-haired animal. It makes it much easier for us to do our visual visitation of the animal. We cannot care for the rabbit's fur.

Bring any additional food in a bag and mark it with your rabbit's name. **It is important that you bring enough for the whole stay.**

Björklunds Hage 4H-farm commits to care for the animals they have in their care according to the instructions given by the owner and the laws that apply.

We care for the animals at a minimum of twice a day, where we change the drinking water, provides new hay and additional food brought by the owner. We clean the cages and give the animals a visual visitation once a day. Our veterinarian has told us to not pick up the animals if it is not necessary (for example when trimming their nails).

If we during the visual visitation see any signs of something being

wrong with the animal, will we do a closer inspection. If it is more severe, will we immediately contact our veterinarian.

Even if we are doing everything we can, it happens that animals don't show that something is wrong, especially in a new environment. Accidents can happen and we might not catch everything. We can ensure you that we do everything we possibly can to make sure that the rabbits and the guinea pigs will get a healthy and safe stay at our hotel.

No one except the staff is allowed in the hotel.

We allow 1 person to check in and out the rabbit. This is for the safety of our guests, new people add extra stress for the animals.

We provide nail trimming for an additional charge of 100 sek/animal.
